

Vectra®

THE ULTIMATE
RUG, CARPET AND
FABRIC PROTECTION

VECTRA® is now available in Gallon and Quart containers, as well as 12 oz. non-aerosol cans. No more hassles over scheduling fabric protection treatment, risky handling, and worrying over who can get the job done, and when. Now YOU can get the job done with the world's best "Self-application" fabric protector on the market today. And it is so simple! A gentle mist is all that is necessary to provide a maximum of protection for your fine furnishings, rugs, and carpets. Each container of **VECTRA®** comes ready-to-spray, with instructions.

TOP LABORATORY TESTS INDICATE

- * NO DIMENSIONAL CHANGE IN FABRIC OR CARPET.
- * NO CHANGE IN COLOR OR TEXTURE.
- * INCREASED FIBER STRENGTH.
- * LASTING RESISTANCE TO ABRASION AND WEAR.
- * RETAINS OVER 80% EFFECTIVENESS AFTER 2 YEARS OF NORMAL USE.
- * RETAINS EFFECTIVENESS THROUGH SEVERAL CLEANING CYCLES, WHEN CLEANED AS DIRECTED.
- * INCREASES THE DURABILITY AND LIFE OF FABRICS.

Q & A

Is **VECTRA®** something like Scotchgard®?

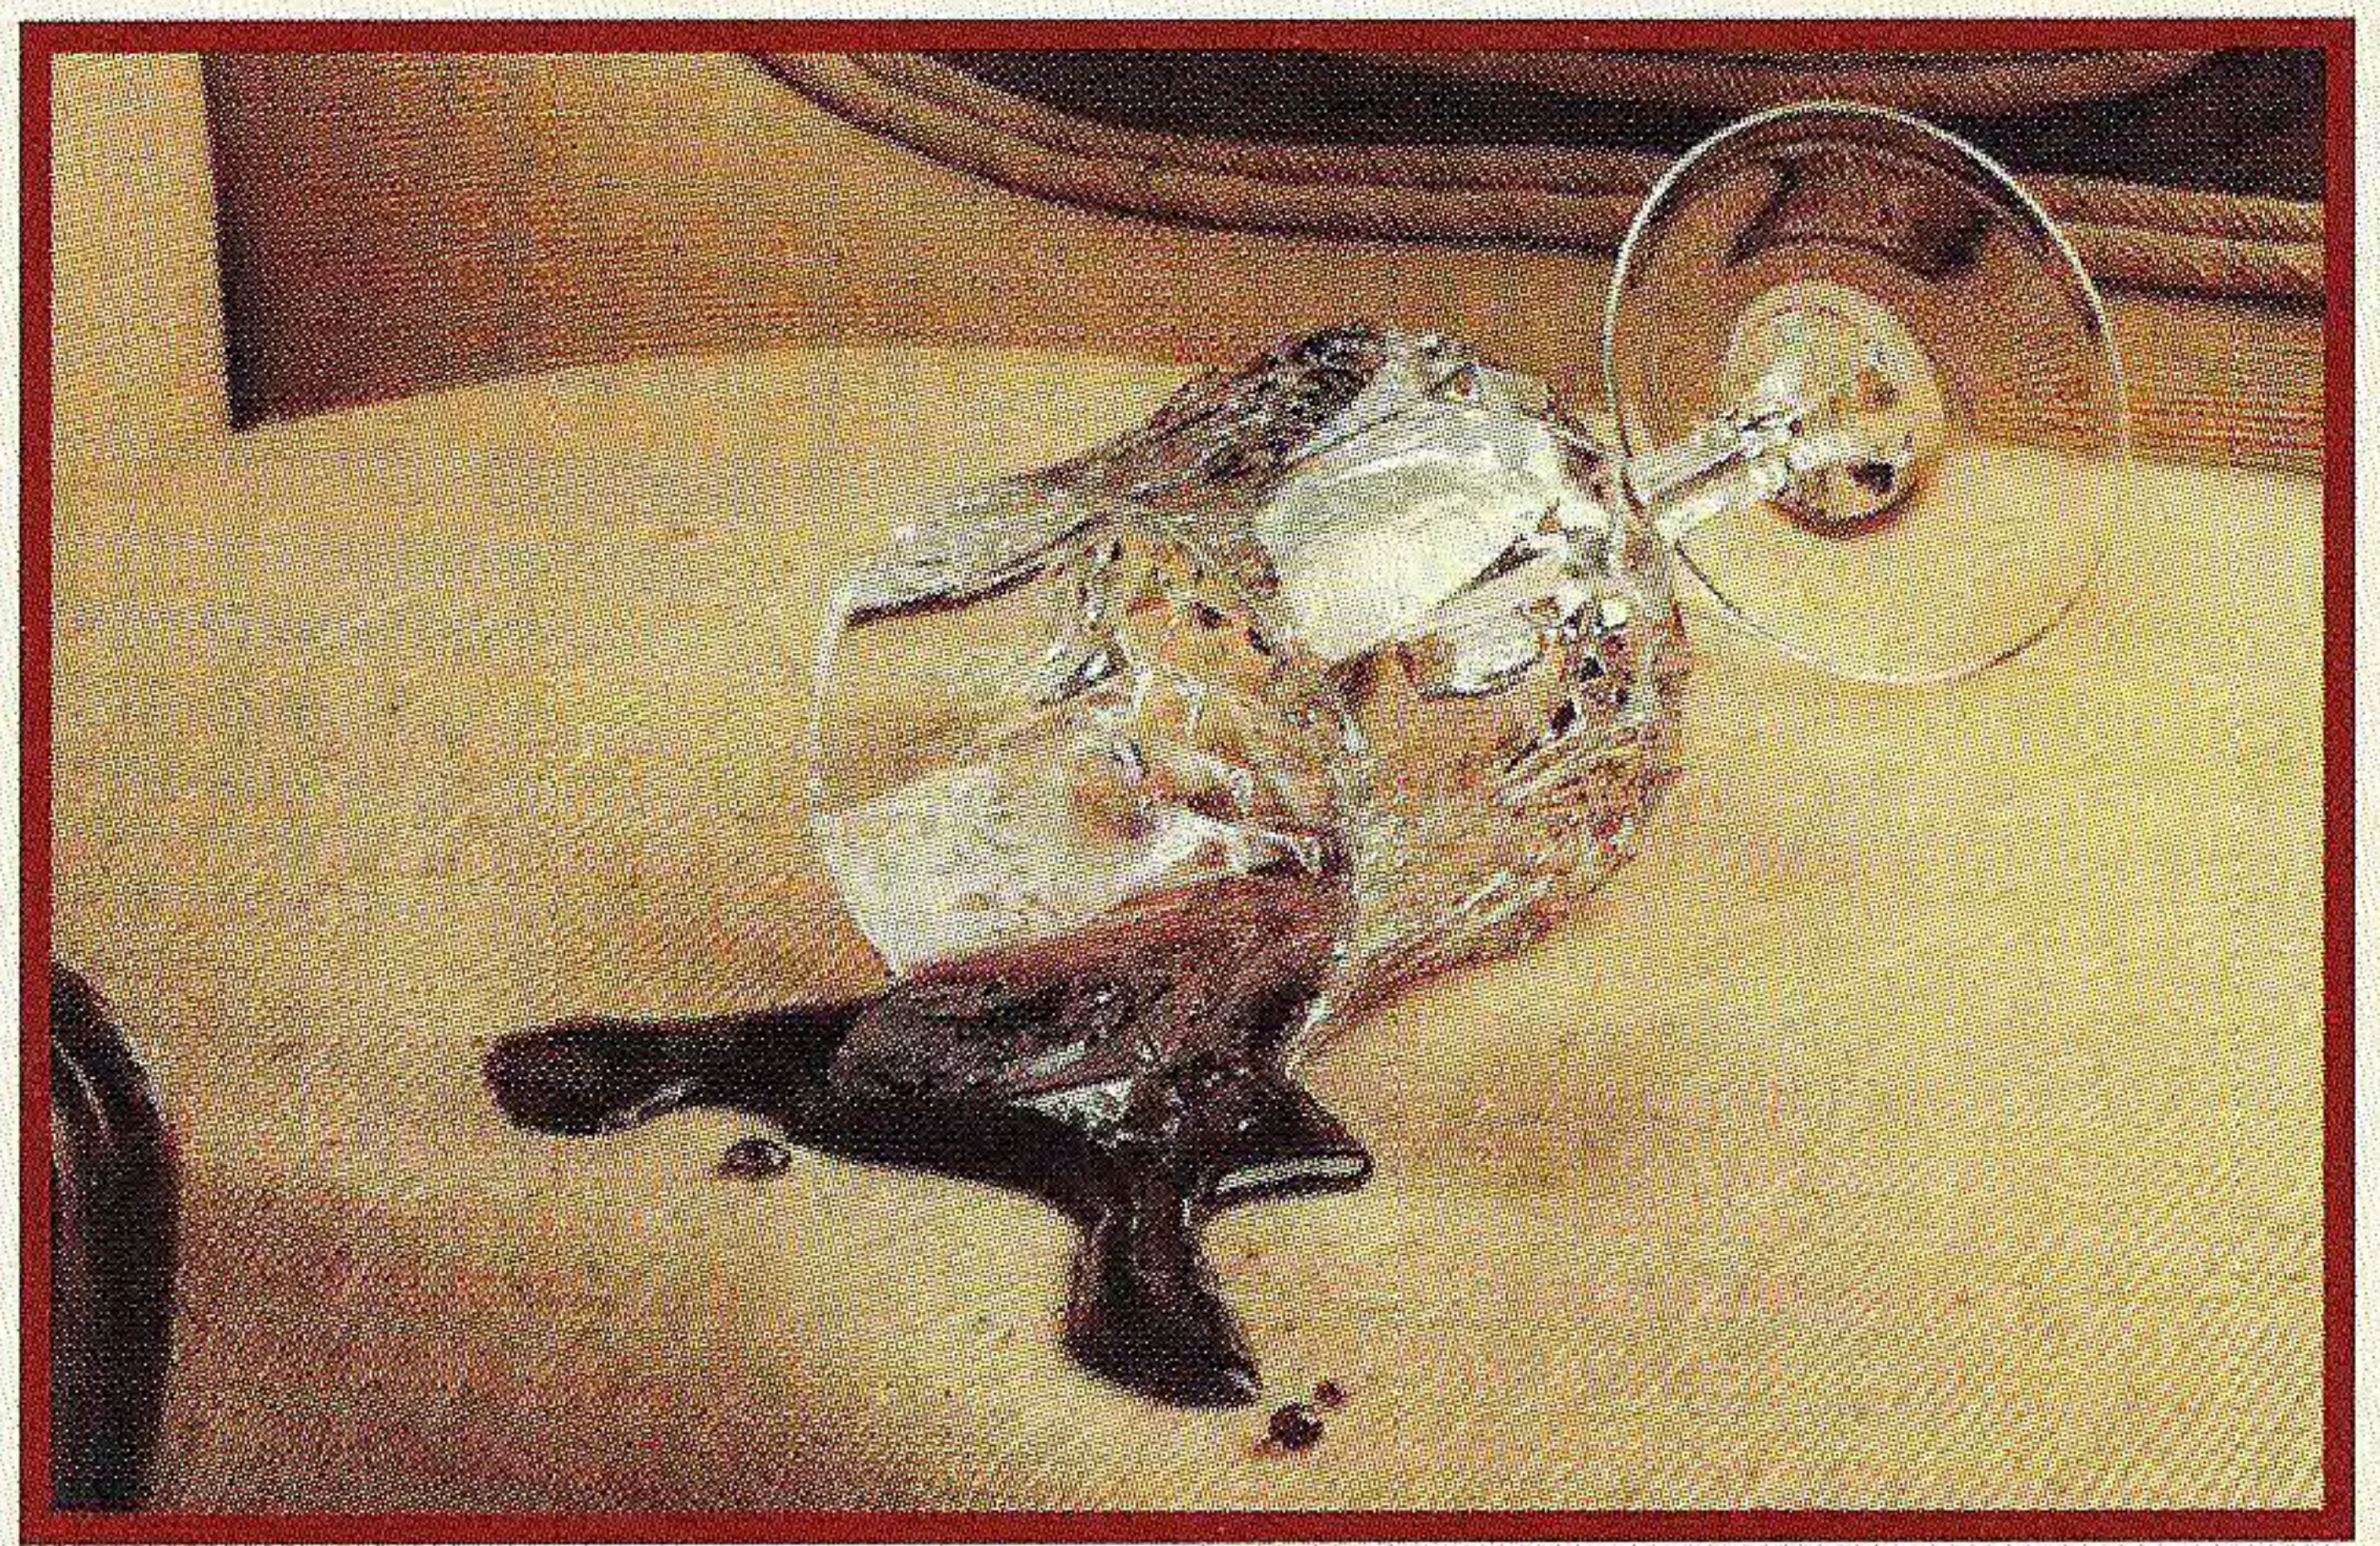

Both are protectors, but **VECTRA®** penetrates the molecule of a fiber and seals it from within, instead of providing simply a topical, or surface coating. **VECTRA®** will treat *three* times the area of comparable products.

Will **VECTRA®** prevent normal soiling?

No product prevents soiling, but your fabrics and carpets are protected against permanent stains from GREASE, WINE, WATER, EVEN PET STAINS.

Will I need special cleaners?

With **VECTRA®**, most spots or soil can be removed with simple household cleaners, such as a mild detergent and a dampened towel. If in doubt, simply call our help line. The Toll Free number is 1-800-241-4880.

VECTRA® is the best protection for your upholstery, area rugs, carpets, draperies and wall coverings! Why?

VECTRA® prevents normal household stains, on all fabrics and fibers including suedes and leather.

VECTRA® gives you the ability to maintain that luxurious "New" look of all your fabrics and floorcoverings. While it is recommended for use on all your new furnishings, Vectra® works well on older items, that are freshly cleaned, with slightly less dramatic results.

VECTRA® penetrates the actual fibers and seals them from within, keeping liquids and solids from taking hold, and creating stains. Thus, giving you positive cleaning results.

VECTRA® prevents dirt from penetrating the fiber, on a molecular level, reducing friction and the accelerated wear of your fabrics. The result is increased life and durability.

VECTRA® will give you years of quality protection, given normal use and last through several cleanings. Even heavy use will only slightly reduce the life span of the product, and at a great price!
